EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Kristin Murphy on February 16, 2010.

The application has been amended as follows:

In the claims

Claim 1: line 8, "in the course of" has been changed to --during--,
line 10, "in the course of" has been changed to --during--, and "the axes of rotation (R) of" has been deleted,
line 11, --, about their axes of rotation (R),-- has been inserted after "movement".

Claims 25-32 and 38-47 have been canceled.

2. The following is an examiner's statement of reasons for allowance: Applicant's arguments filed December 1, 2009 are persuasive, therefore the 35 U.S.C. 103 rejections in the case are hereby withdrawn. Specifically the examiner agrees with Applicant's argument that, regarding amended claim 1, the prior art does not teach a process of machining an outer joint part or an inner joint part of a constant velocity universal ball joint wherein during machining the outer joint part or the inner joint part is

guided linearly in the direction of its respective longitudinal axis, and during machining, the disc tools are guided synchronously in a linear or pivoting movement about their axes of rotation relative to the respective longitudinal axis, these in combination with the rest of the limitations in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
